

K-Love has helped our community be more supportive of each other by giving us ideas of hope and love. If you displace K-Love by an LPFM broadcaster, many of us will drive around, go to work, or listen at home to what the world want--cusing, music that is depressing or put-downs. I believe that the service provided by K-Love helps keep me focused as a teacher to doing good, keeping a positive action. Thus, I feel that to remove this station, I and many other teacher's like myself, plus parents, workers, and youth, will lose the support to be kind, loving and do good to others.
